

**XIX INTERNATIONAL CONGRESS
OF THE POLISH PHARMACOLOGICAL SOCIETY**

50th Anniversary of the Polish Pharmacological Society

17th – 19th SEPTEMBER 2015

ŚWINOUJŚCIE, POLAND

Dear Friends and Colleagues,

We have great pleasure and honor in inviting you to participate in the XIX International Congress of the Polish Pharmacological Society and to celebrate with us the 50th anniversary of the Polish Pharmacological Society.

The congress is held on September 17-19, 2015, and its high scientific value is guaranteed by the attendance of many internationally recognized experts in basic and clinical pharmacology. The congress will be an excellent opportunity to exchange ideas and new scientific contacts, listen to state of the art lectures and participate in symposia. The main scientific aspects discussed during the congress involve: progress in epilepsy and antiepileptic drugs, glutamate metabotropic receptors in CNS disorders, neurotoxicity and neuroprotection as well as safety and optimization of pharmacotherapy.

The congress venue is located in the Baltic Sea holiday resort Świnoujście, which offers a leisure time after scientific meetings. You can enjoy picturesque sunsets, beach walks or spend time in cafeterias close to the pier.

We look forward to welcome you in Świnoujście.

Prof. dr hab. Marek Drożdżik

President of the Polish Pharmacological Society

Sessions

- **Progress in epilepsy and antiepileptic drugs**
- **Glutamate metabotropic receptors and CNS disorders**
- **Neurotoxicity and neuroprotection**
- **Safety and optimization of pharmacotherapy**
